

Simon Says "Phone"

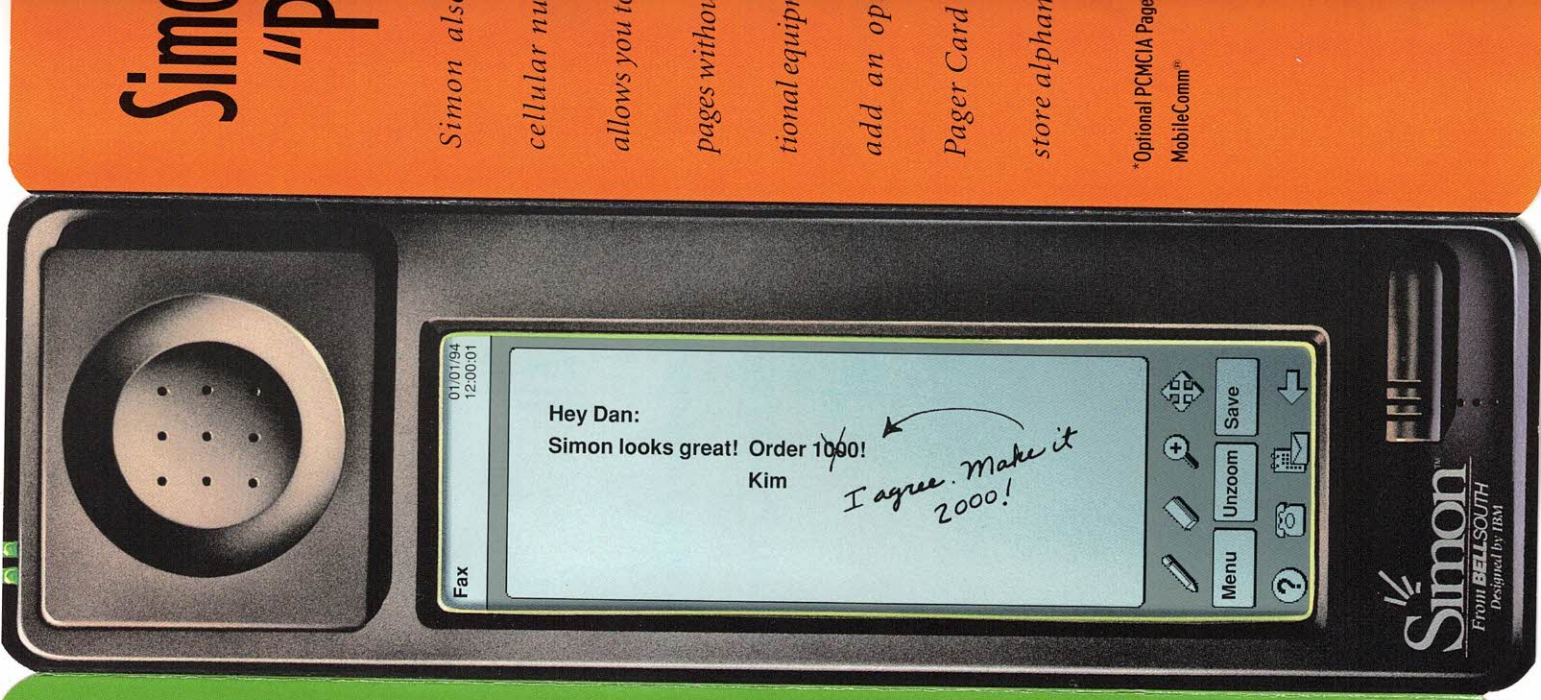

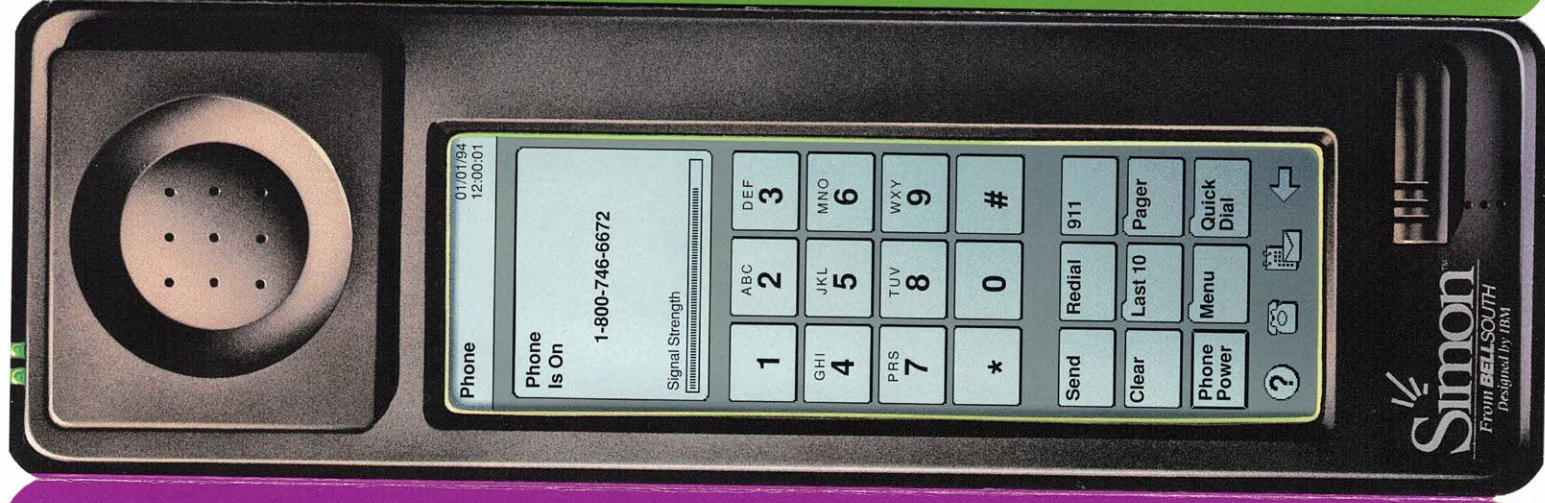

Introducing Simon...The first
lightweight personal com-
municator that packs all your
mobile communication tools
into one affordable, handheld
package. And Simon is easy
to use. Just touch the backlit
LCD screen with your finger to
access all of Simon's innova-
tive features. And since all
features are integrated, Simon
goes where you go, and works
where you work — wirelessly!

Simon Says "Fax"

Another first! Simon is the first
cellular phone with a built-in
fax. Simon sends and receives
up to three pages wherever
you are. You can even hand-
write comments, draw dia-
grams or type your response.
Immediately!

- Automatic answer (in fax mode) or manual answer
- 9600 bps transmission/Group 3 fax
- Zoom capability
- Optional memory expansion cards available

MobileComm™

Simon Says "Page"

*Simon also has a built-in cellular numeric pager that allows you to receive up to nine pages without purchasing additional equipment. You can even add an optional PCMCIA Pager Card and receive and store alphanumeric pages.**

*Optional PCMCIA Pager Card available from MobileComm®

Simon Says "Organize"

But that's not all. Simon gives you every feature of today's best electronic organizers. It puts all of your communication tools at your fingertips.

- Wireless E-Mail: Send and Receive (operates via access to Lotus® cc:Mail™)
- Appointment Scheduler and Calendar
- Electronic Address Book with Auto Dialing
- Calculator and World Clock
- Handwriting Annotation lets you write on the screen with a stylus
- Built-in Keyboard for typed messages

Simon Says "Simplify"

Only Simon lets you communicate how, when and where you need it. So go ahead. Clean out your briefcase. Let BellSouth simplify your mobile communications. And put Simon to work for you.
